

CFS introduces Large Format Scanning Services!

No matter what kind of documents you need scanned, CFS can help you:

- Large format engineering and architectural drawings up to 54" wide
- Large format color maps, artwork or renderings up to 54" wide
- Office documents and technical documents
- Story boards on up to ½" thick dry mount
- Aerial photos
- Old, frayed archival blue prints and other documents

Special services include clean up of background noise on older drawings, rotation of the image for best viewing, background suppression & deskewing of documents. To keep the cost of scanning your documents low, we simply ask that all documents be scanner ready. That means all documents must be free of all tape and staples. Pricing is dependent on the following items:

1. The quality of the original is an important factor...the better the original, the lower the cost. Very old mylars and sepias with fragile edges take more time to scan to ensure best image quality.
2. In certain cases, we will build a mylar carrier to protect your drawings if necessary. This requires a small additional cost.
3. If your organization has pressing deadline, for a little added cost CFS stands ready to meet your needs. We can work around the clock if necessary to meet your organization's scanning needs.

Large Format Scanning Prices – Basic Service *Effective August 28, 2007*

B/W Scanning (Minimum order – \$20.00):

Large format scanning prices for originals up to 50" wide @200DPI:

1-20 - \$3.50 each
21-99 - \$2.50 each
100 + - \$2.00 each

Color Scanning: (Minimum order - \$20.00)

Large format scanning prices for originals up to 50" wide @300 DPI

1-20 - \$4.25 per square foot
21-99 - \$3.25 per square foot
